

# THE RACE FOR THE BEST JOBS STARTS EARLIER THAN YOU THINK

It starts before the in-person interview, before the diploma is framed or the tests are aced. From their earliest years, Arizona's children are in a race. It's a race to keep up with their classmates, and stay ahead of students around the world. At stake are the best job opportunities and ultimately their quality of life. To help them, we need to do more at every stage of the education experience - from birth through career.

Expect More Arizona is a movement of Arizonans who believe education needs to be our state's top priority. We want more people to be actively involved in making our education system the best it can be. We want you. It's time for all of us to expect more of ourselves, our students and each other when it comes to what we are putting into education. After all, when our students succeed, we all benefit.

are falling behind  
their peers  
around the world  
in academic  
achievement, high  
school graduation  
rates and  
postsecondary  
degree attainment.

It's up to  
all of us to help  
them succeed.
